10. If registration is successful you will see the following page. If you left any of the fields blank or you choose a username already in use the system will reload the Registration page with a list of errors and incomplete items.

11. Follow the link to login.

12. Enter your username and password and click "Login".

13. Choose what weight you want to start entering data at.

14. In the upper section of the wrestler information page you will enter specific information about your wrestler. All the field are required. **“SEEDING RECORD”** does **NOT** include matches wrestled in the **PIAA DISTRICT** and **STATE** Dual Meet Tournaments; this is what is used to determine winning percentage points. If your team participated in the state dual meet tournament the seeding record and overall record will be different, if your team did not participate in the dual meet team tournament these records will be the same. The **OVERALL** record will be displayed on the Bracket and program but **NOT** used in any calculations.

15. The bottom table is where you enter information about anyone your wrestler had a match against that placed last year. They receive competition points whether they won or lost. If you have not been keeping track your competition points all season Tom Elling’s “Pennsylvania Wrestling Handbook” is a great resource that will allow you to look up how every individual finished at the section, district, region, and state tournaments in Pennsylvania and most neighboring states. Get the handbook here: <http://pawrsl.com/pa/tebullnew.htm>

Any information entered that cannot be verified by the handbook will need to be verified by presenting proof of finish at the seeding meeting. The table on the right is a cross reference of how many competition points are earned. All fields are required for competition points to be calculated!
