

How to use the Beckernetworks PIAA seeding system:

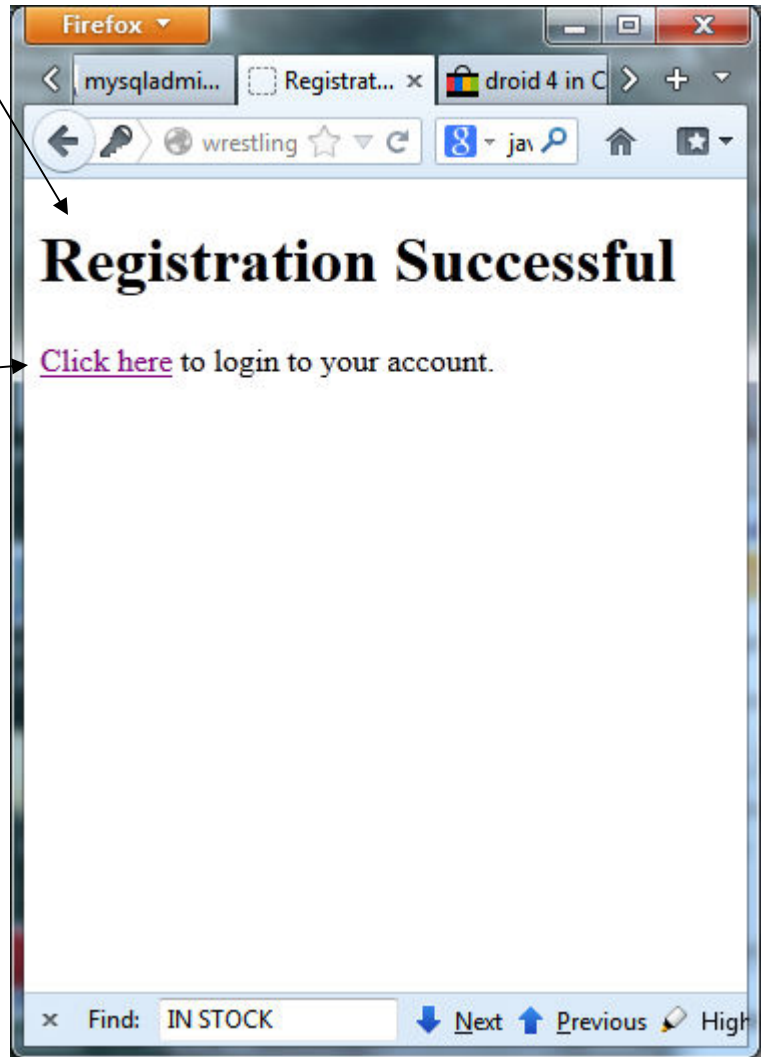

1. On a browser of your choice goto <http://wrestling.beckernetworks.com>
2. In order to get started you will need to Add a user Account. ALL USER ACCOUNTS FROM LAST YEAR HAVE BEEN ERASED. YOU MUST CREATE A NEW USERNAME AND PASSWORD EACH YEAR. If you already have a user account this year skip to number 12.
3. There is a link to a video demonstrating use of the seeding system.
4. Each school can register one login only. Realizing that Head Coaches may deligate the responsibility of entering data to an assistant the registration form has been updated slightly.
5. Registration data includes the Manager Name, Email address, and Phone Number of the person entering the data into the system. We need this information incase of problems arise and we need to contact you. This data will NOT be publically available.
6. Select your school by first selecting your section or AAA. Then select your school from the drop down menu.
7. Select your Login and password.
8. Lastly, your head coaches name as it should be printed in the PIAA program.
9. When all fields are entered click the "Register" button.

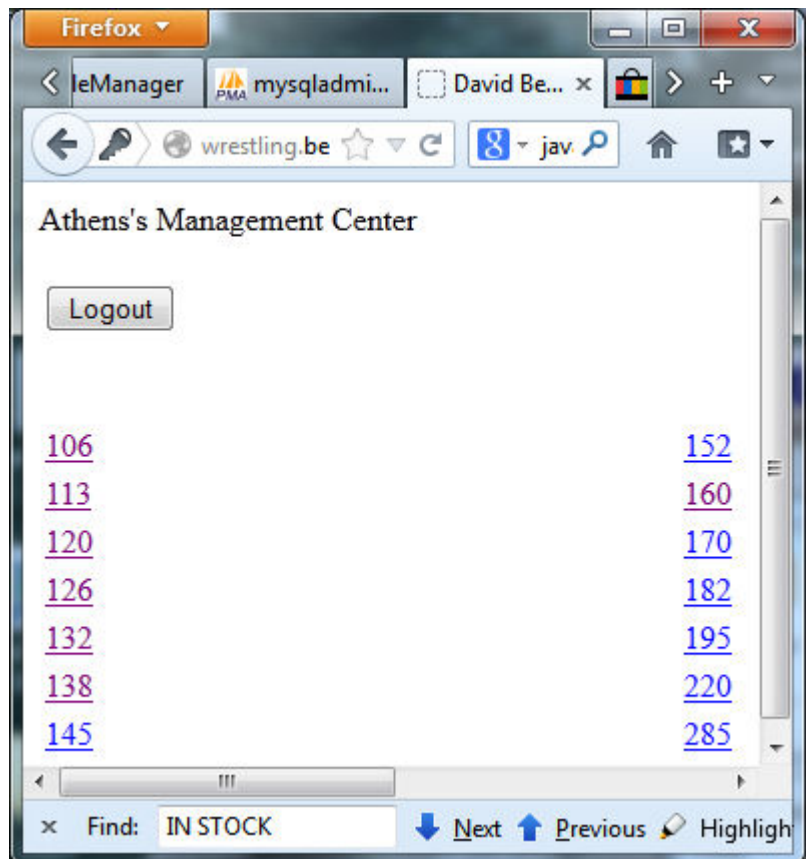

10. If registration is successful you will see the following page. If you left any of the fields blank or you choose a username already in use the system will reload the Registration page with a list of errors and incomplete items.

11. Follow the link to login.

12. Enter your username and password and click "Login".

13. Choose what weight you want to start entering data at.

14. In the upper section of the wrestler information page you will enter specific information about your wrestler. All the field are required. **“SEEDING RECORD”** does **NOT** include matches wrestled in the **PIAA DISTRICT** and **STATE** Dual Meet Tournaments; this is what is used to determine winning percentage points. If your team participated in the state dual meet tournament the seeding record and overall record will be different, if your team did not participate in the dual meet team tournament these records will be the same. The **OVERALL** record will be displayed on the Bracket and program but **NOT** used in any calculations.
